

INTERNSHIP COMPLETION CERTIFICATE

DATE August 04, 2026
REF XAPPO-INT-2026-09

This certificate confirms that

Laiba Mehreen

has successfully completed a **6-week Full-Stack Software Engineering Internship** at
XAPPO Enterprises Ltd.

During this period, Laiba's assignment was to build a **data governance maturity test** for XAPPO, covering both the backend development and the frontend visualisation of the assessment results.

KEY TECHNICAL CONTRIBUTIONS

01

Assessment Design

Built a data governance maturity test that evaluates an organisation across multiple governance dimensions and translates the responses into a maturity profile and score.

02

Backend Development

Developed the backend of the assessment, including the question and scoring logic, the underlying data model and the APIs that capture and process responses.

03

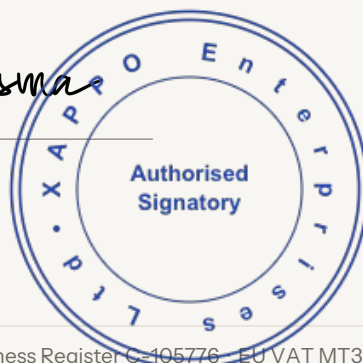

Frontend Visualisation

Implemented the frontend visualisations that present the maturity results clearly and interactively, for practitioners and executive stakeholders alike.

Laiba demonstrated excellent technical execution, analytical problem-solving and professional discipline throughout the internship, and accomplished her assignment above expectations. We appreciate her contribution to XAPPO's data governance tooling and wish her every success in her engineering career.

A handwritten signature in black ink, reading 'Harro M. Wiersma'.
